WHERE DO I DROP OFF MY RECYCLING?

Single-Stream Recycling:

Most College House recycling chutes are located near trash areas.

Lightbulbs & Batteries:

Collection sites are often in College House lobbies or mailrooms.

WHY

- The average American generates 4.38 lbs of waste per day
- Only 34.5% waste in the US is recycled or composted
- Recycling and composting prevented approximately 168 million metric tons of carbon dioxide equivalent from being released into the air in 2012—equivalent to taking over 33 million cars off the road for a year
