

Summary:

Graduate Interns support the University's sustainability programs and work towards goals within the Climate and Sustainability Action Plan 3.0. Interns will work closely with the Sustainability Office and assist in the coordination of outreach programs, strategic marketing and education initiatives, and operational research projects.

Summer internships with Penn's Sustainability Office are designed to give students exposure to a broad cross-section of the sustainability field, and in addition to managing hands-on projects and conducting research assignments, students will also be given many opportunities to learn throughout their experience. Interns will be asked to help with a host of programs and projects over the summer and will gain valuable skills in program management, event facilitation, marketing strategy, virtual stakeholder engagement, sustainability research, and more.

Requirements:

- Familiarity with sustainability issues
- Strong writing, communication, and program coordination skills
- General knowledge about broad issues pertaining to environmental sustainability
- Prior experience leading peers in student organizations
- Strong interpersonal skills with ability to work well independently and in teams
- Familiarity with sustainability community and programs at Penn preferred
- Ability to research and compile information succinctly in reports

Potential projects/Responsibilities:

- Provide research support for Penn's [Environmental Sustainability Advisory Committee](#) (ESAC) and the University's *Climate and Sustainability Action Plan 3.0* for the following topics:
 - Stormwater and physical environment
 - Waste and recycling
 - Transportation
- Assist in developing curriculum and content for [Student Eco-Reps Program](#)
