

Undergraduate Sustainability Internship – Green Labs Summer 2022

Summary:

Undergraduate Interns support the University's sustainability programs and work for the Climate and Sustainability Action Plan 3.0. Interns will work closely with the Sustainability Office and assist in the coordination of outreach programs, strategic marketing and education initiatives, and operational research projects.

Summer internships with Penn's Sustainability Office are designed to give students exposure to a broad cross-section of the sustainability field, and in addition to managing hands-on projects and conducting research assignments, students will also be given many opportunities to learn throughout their experience. Interns will be asked to help with a host of programs and projects over the summer and will gain valuable skills in program management, social media content development, visual communications, sustainability research, and more.

Requirements:

- General knowledge about environmental sustainability issues
- Experience working in any type of lab space
- Strong writing and communication skills
- Willingness to learn and write for social media
- Prior experience leading peers in student organizations
- Strong interpersonal skills with ability to work well independently and in teams
- Familiarity with sustainability community and programs at Penn preferred

Potential projects/Responsibilities:

- Help build out a freezer inventory for Penn's labs campus-wide
- Research and develop curriculum for the Green Labs program around sustainable lab practices
- Provide research support for Penn's [Environmental Sustainability Advisory Committee](#) (ESAC) and the University's *Climate and Sustainability Action Plan 3.0*
- Provide marketing and communications support for strategic sustainability priorities, procurement of promotional sustainability items, and inventory management
